Badal launches state portal ePMS as part of nationwide DIW

Thursday, July 02, 2015, Chandigarh: As a part of nation-wide ‘Digital India’ Week, Punjab Chief Minister Parkash Singh Badal today launched the state Portal ePMS (Electronic Projects Management System) at his official residence.

This novel project was kicked off to fast track infrastructure development, enhance efficiency, bring transparency, boost the investor confidence, revive the investment cycle, eliminate the human interaction and improve the communication between industries to government (B2G), state to Centre (G2G), or vice versa (G2B).

A spokesperson for the Chief Minister’s Office today said Mr Badal lauded this unique initiative taken by PM Modi to hasten the industrial and infrastructural growth in the country.

He hoped that this state portal would act as a catalyst to seek clearances from various central agencies expeditiously required for the timely implementation of the ongoing development projects and welfare schemes in the state thereby cutting down inordinate delay. This unique project would automate the entire tracking of stalled investment project issues from submission to commission on time.

It was informed in the meeting that so far, online projects tracking mechanism has been adopted by the states of Jharkhand, Odisha, Uttarakhand, Kerala, Chhattisgarh, Uttar Pradesh, Himachal Pradesh, Karnataka, Maharashtra, Puducherry, Assam, Madhya Pradesh, Gujarat, Andhra Pradesh, Bihar and Haryana. – UNI
