e-Suvidha portal for clearing large stalled projects in Goa, at State and Central levels

30, Jan 2016

In addition to the sweeping powers of the Investment Promotion Board, the e-Suvidha website has been launched for large projects both public and private, that are getting stalled for lack of government approvals. Chief Minister Laxmikant Parsekar launched Goa e-Suvidha Portal, an online project tracking mechanism developed by the Cabinet Secretariat Informatics Division of NIC.

The portal esuvidha.gov.in/goa will fast track approvals for setting up and commissioning infrastructure and other large projects particularly stalled projects, both in the public and private sectors, with targeted investment between Rs. 50 crores and Rs. 1000 crores. The system has been designed to enhance efficiency, bring transparency, boost investor confidence, eliminate human interaction, and improve the communication between industry and Government.

If any large project investing between Rs. 50 crore to Rs. 1000 crore is facing bottlenecks in obtaining approvals from the public authorities can upload any project in the Goa e-Suvidha Portal.

Projects investing over Rs. 1000 crore in Goa and are having problems getting approvals, they will be uploaded on the Central (e-Suvidha) portal.

The Goa e-Suvidha system has been developed using open source technology and hosted at National Data Centre of NIC, New Delhi.
